

SunGarner
Green Asset

INDEPENDENT POWER PRODUCER

Clean Energy, Smart Investment, Long-Term Impact

Company Overview

SunGarner Green Asset Pvt. Ltd. was incorporated in June 2024 as a wholly owned subsidiary of SunGarner Energies Ltd., with a dedicated focus on establishing and managing independent renewable power assets across India. SunGarner Green Asset Pvt. Ltd. is created to power the transition towards a sustainable future through clean, reliable, and innovative energy solutions.

As an Independent Power Producer (IPP), we specialize in setting up and operating large-scale solar and hybrid renewable energy projects under CAPEX, OPEX, and RESCO models. Our goal is to enable industries, utilities, and institutions to shift towards green energy without upfront capital costs, while contributing to India's renewable energy mission.

About SunGarner Green Asset

We are the green energy arm of SunGarner Energies Ltd., focused on delivering solar and hybrid power solutions under long-term energy supply models. Backed by deep domain expertise and operational excellence, we design, build, own, and operate renewable energy assets that help our clients reduce carbon emissions, achieve energy savings, and meet sustainability goals. With a strong commitment to innovation and impact, we are powering the energy transition—one green asset at a time.

Why Choose SG Green Asset?

We create safe, sustainable environments and eco-friendly energy solutions for forward-thinking businesses that value the planet and the future. At the heart of our mission is empowering Indian enterprises to become energy self-reliant through solar power. With a customer-first approach, we go beyond boundaries to deliver reliable, impactful solutions that drive long-term value.

- Innovative & Future-Ready Renewable Energy Solutions
- Comprehensive EPC Services for Captive and Independent Power Projects
- Smartly Tailored Solutions to Meet Every Energy Need
- Commitment to a Safe, Healthy, and Sustainable Environment
